

A SILVER LINING.
Such Is the Condition of the Financial Clouds.
THE ONE GREAT QUESTION.
An Extra Session of Congress Demanded by the Present State of Affairs—Congressman Blund interviewed—He says the Whole Thing Is a Golden Conspiracy to Throttle Our Congress.
WASHINGTON, June 29.—The advocates of free coinage are visibly disheartened over the action of the authorities in India in stopping the unlimited coinage of silver. It is evident that they regard this as a serious blow at their pet theory, and that the logical effect will be to strengthen public opinion in this country favorable to the early repeal of the Sherman act. Recognizing the growing sentiment for the repeal of that act, the free coinage leaders have become alarmed and have been making arrangements for a concerted movement intended to counteract the progress of this feeling.
Headquarters are to be established in the city and a missionary work is to be organized for congressmen who have heretofore cooperated with the free coinage movement and who have recently given indications of a purpose to vote for repeal.
A. J. Warner of Ohio, one of the leading free coinage crusaders, who is in the city for the purpose of making an address on this subject, shows a general interest in the alarm among the silver men and how it pervades the whole silver camp.
The president has received numerous letters and telegrams from business men and commercial associations throughout the country urging that congress be convened at the earliest day practical, but unless a financial crisis should threaten, the date for convening congress will not be changed.
So far as can be judged from present indications there is no reason to apprehend that the silver movement will add 1,000,000 ounces of silver bullion to the stock now held by the treasury. The situation is not likely to be seriously changed by the stopping of silver coinage in India. On the contrary there are many who believe this stopping of silver coinage will be beneficial to the cause of sound money.
Change from an unsound to a sound financial policy must result in the quickening of business in India and an advance in the price of all its products with a corresponding advance in the staple products of the United States. The United States which would be still further advanced by the repeal of the Sherman act, the monthly purchase of silver bullion in this country.
In stopping unlimited silver coinage India is actually assisting the cause against the great depression that has been suffered so long in that country in consequence of persistently declining prices. It is a limited extent the same suffering prevails in the United States and from similar causes. The result is to reduce the price of silver bullion in the United States can not longer sustain silver now that India has withdrawn its support and this fact must be apparent to all thinking men who are not owners of silver mines.
CONGRESSMAN BLUND INTERVIEWED.
The Great Silver Advocate Talks on the Silver Question.
ST. LOUIS, June 29.—In an interview Congressman Richard P. Blund of Lebanon gave his opinion that the suspension of free silver coinage in India would have a serious effect on the financial policy of this government and more especially the silver advocates.
"Heroic measures will be required on the part of this government for the demoralization of silver. The demoralization is meant by its authors to have an effect upon our legislators in favor of a gold standard. There may be some kind people who will be induced thereby, but I am not at all sure I do not think it is a knockout for silver in this country. On the contrary I think that if this thing is done, it is some measure looking to a financial standard, it will make the battle of standards the coming issue in this country. This battle will bring the political parties and cause a contest between the commercial centers and the agricultural districts of the country. The demoralization of silver is a conspiracy between the banking institutions of England and the eastern portions of the United States, and the suspension of free silver coinage in India is part of this conspiracy to bulldoze the congress of the United States into the adoption of the single gold standard. I do not believe that they will succeed."
THO' MEXICAN SPECTACLES.
The Greasers Want This Country to Force Huastecan.
CITY OF MEXICO, June 29.—The tremendous drop in the price of silver bringing exchange on New York to 60 per cent has created much discussion among Mexican bankers. They are generally regarded the present situation as offering a great opportunity for the United States to force bimetalism upon Europe. It is said that the United States might issue a gold loan of \$500,000,000 at 4 1/2 per cent bonds, which is said, would be immediately taken up in Europe, where all other government securities would immediately drop heavily, not being able to compete with American bonds. Then, according to the theory, gold would flow into the United States, and in a short space of time bimetalism would have been adopted by Europe and the enormous quantity of silver held by the American treasury would be in value, the whole transaction being immensely profitable to the United States. It is said here that if nothing is done to bring about bimetalism all the silver using countries will be manufacturing for the United States and Europe will lose enormously in their foreign trade. The United States it is said would be able to undertake a gigantic financial operation, being able to feed it, and has now a wonderful opportunity to settle the silver question permanently.
How to May Affected? Experts.
New York, June 29.—A morning paper editorially discusses the Indian silver situation in doublebanded type, saying in part: "As to the diminution of the exports of wheat from India to Great Britain, a consequence of the arresting the diminution of the value of the rupee, which so many predict, there is no ground for expecting it. Wheat is exported from India to Great Britain not because of its low price in India, but because London is the best market for it; and it will continue to be exported thither until it brings more than the cost of transportation."
The idea that the price in London will advance, and the American wheat grower thus be benefited, is equally chimerical. India never has supplied Great Britain with more than one-fourth of the wheat she consumes, and for the first five months of this year it has been unable to send there only 60,000 bushels of wheat.

HAWAII HEARD FROM
Another Vessel Arrives From Honolulu.
THE VERY LATEST ADVICES.
Annexationists Satisfied with the Present State of Affairs—Minister Blount Cited—Onus Speciebus Still a Royalist, England May Yet Be Called on to Settle the Hawaiian Problem.
SAN FRANCISCO, June 29.—The steamer Australia has just arrived from Honolulu bringing the following advices: President Cleveland's reply to Secretary Thurston was received June 28, and is very disappointing to Royalists. The annexationists regard it as implying a serious doubt as to the general propriety of annexing Hawaii. The country is a small island, and one of the most backward in population. President Cleveland's language they consider to imply a doubt of the wisdom of the annexation. Hawaii is a small island, and one of the most backward in population. They are confident that any scruple of this sort will in good time disappear. On the whole they are very gratified with Mr. Cleveland's expressions.
There is strong evidence for the belief that by the mail of June 14th, Minister Blount was advised by Secretary Gresham that he was in error in protesting Nordhoff; that the cutting Nordhoff's statements were written in Honolulu, whereas Cutting's were written where they were published, and that Nordhoff's statements were written in Honolulu over to the mercy of the Hawaiian government and did so but that Minister Blount was not to utter in order to spare Nordhoff's feelings.
Minister Blount was invited to deliver the oration on July 4, but declined. The orator will be W. W. K. Blount's action is severely criticized by the American colony. Nordhoff has been refused to attend the anniversary meeting, but he has also refused to address his countrymen as part of the celebration of the anniversary.
His excuse is that the political situation here is peculiar. It is charged that during his recent trip he was captured by the Royalists and listened to their speeches.
Claus Spreckels gave a dinner in honor of his son's return from China. It was a Royalist affair, though politics were not mentioned.
The desire to make overtures to Nordhoff before sending a protector seems to grow in favor.
Claus Spreckels' Opinion.
SAN FRANCISCO, June 29.—Adolph B. Spreckels returned from Honolulu on the steamer Australia. He says the Hawaiian government was not overjoyed that the only solution of the volume of Hawaii is the return of the queen to power.
SIXTY-FIVE YEARS IN OFFICE.
A Postmaster Who Stands Well With All.
THOY, N. Y., June 29.—Yesterday was a proud day for Postmaster Roosevelt of North Lansing, Orange, New York county. Sixty-five years ago, he was born on June 23, 1868, he was promoted to his present position as postmaster from assistant postmaster John Q. Adams. He has held the office ever since without interruption, and is still doing business as the postmaster. He was in his 13 year when he received his appointment and is consequently 84 years old. His unbroken service is the longest in the history of American office-holding.
Five years ago, when his commission had reached its 60th year, he was offered a large figure for his services by the New York Geographical Society. The offer was refused. The old gentleman between his mother and his country store, now as then, as a devoted citizen, has remained an independent contributor. In his last quarterly return to the postoffice department, he referred to the fact that he had mailed letters for some of the families in his neighborhood for five generations.
For many years the revenues from the office did not exceed \$20 annually, and it was considered a big thing when the office was increased to \$200. Like Senator Hill, Postmaster Roosevelt is proud to proclaim, "I am a Democrat," but it has been many years that he has manifested any political activity.
Pittsburg Strike.
PITTSBURG, June 29.—Two hundred puddlers, employed in Piquette, Clairton and the Piquette district, went out on a strike. The trouble began two weeks ago when several puddlers were discharged. The demand of the workmen that their association be recognized was unheeded. Several fruitless conferences between the firm and employees have been held on the subject. The puddlers declare they will not return to the firm until they have all the men they can use as soon as they are prepared to commence work again.
Base Ball.
At Pittsburgh—Pittsburg, 5 Philadelphia, 15.
At Cleveland—Cleveland, 3 Washington, 6.
Chicago—Chicago, 7 Brooklyn, 9.
At St. Louis—St. Louis, 14 Baltimore, 10.
At Louisville—Louisville, 10 Boston, 12.
At Cincinnati—Cincinnati, 10 New York, 6.
Indications.
Increasing cloudiness and showers in the afternoon and evening; warmer, east winds.

Kenyon Military Academy.

Gambier, Ohio, will begin its 70th year September 20th, 1893. It is much the oldest, largest and best equipped boarding school for boys in the State. Send for its catalogue.

VAN-ISHED.

Leaving Musicians and Actors Unpaid.

Chas. Van, Proprietor of the Variety Hall Shirts.

Chas. Van, the proprietor of the Brunwick Variety Hall, that has been holding forth at Turner Hall, for the past few weeks, has disappeared, and with him several hundred dollars due his actors and musicians.

Van is an assumed name for the fellow, his real one being Charles Fish, son of a prominent Cleveland attorney of that name, whose office is on Prospect street.

Young Fish was a wayward youth and has been both up and down.

DOWN IN THE WORLD.

His parents are said to be highly respectable, and he is the black sheep. Young Fish has sailed under a number of aliases, coming here under the name of Van. He has been doing a fairly good business, and last night decided that it was about time to skip. He had succeeded in getting indebted to everyone who would trust him, and last Saturday night neglected to pay the actors or musicians, and they are out from ten to thirty dollars each, making the aggregate amount a couple of hundred dollars.

His disappearance was not known until this morning, when some of the performers appeared at the hall to find him gone and a note left him stating that:

HE HAD LEFT TOWN.

and bidding them all good bye. As soon as it became known that he had gone, there was a general stampede of creditors for the hall, only to find that there was nothing to get hold of the "Lima Evening Company" having a default made upon the piano. Will Jagger, treasurer of the beer pump which was purchased from him, Van making only one payment upon it.

During the past two weeks Van boomed his business in anticipation of jumping the town, by working the:

WORLD'S FAIR TICKET SCHEME.

by which he secured quite a sum, the contents of his friends visiting the place and tapping their friends into his coffers with the hope of getting their particular friend a free trip to the fair.

The Turner Hall people held the bag for \$50 half rent.

HIS CLEVELAND RECORD.

CLEVELAND, Ohio, June 29.—(Special.)—No surprise was created here over the flight of "Van" Fish, who has been making a name for himself as a well known hawker and was a young man of good promise. He married into a wealthy family, but he soon started on his own, and his wife and child were left in a state of destitution. Just before he left Cleveland he ran a shooting gallery.

PINCHED.

George McEwen Hurt of the C. H. & D. Shops.

He is Caught Underneath a Heavy Tire and Evidently Squeezed.

This morning about 8:30 o'clock, George McEwen, an employee of the C. H. & D. shops, met with what came near being a fatal accident.

McEwen and several others were rolling a heavy locomotive tire, weighing about five hundred pounds, when it got overbalanced.

McEwen was walking along the side of the tire and was pressed backward onto some car wheels. The great weight came down on the two other men lying under it, and he was very badly injured.

McEwen was taken care of by his fellow employees until Dr. Kahle arrived, when he was carried on a stretcher to his home at 702 North Jackson street.

No bones were found broken, and while he is injured seriously internally, it is not thought there will be any fatal results, but he will probably be laid up for some time.

AT HIGH NOON TO-DAY.

Mr. Byron Smith and Miss Dora Davis are Wedded.

At noon today a very pretty wedding occurred at the residence of Mr. J. H. Hutton, when Mr. Byron Smith, of East 12th street, the bridegroom, and Miss Dora Davis, of West 12th street, the bride, were united in marriage.

The bridegroom is a well known in the city, having been employed as bookkeeper at the Lima National Bank and also at the P. W. & C. Bank.

The bride is also well known and one of the most popular young ladies of the city. She is a native of this city and will be greatly missed in social circles.

Their many friends wish them a long and happy life.

Mr. and Mrs. Smith will leave for the home of the bride's parents, where they will remain until next Monday, when they will return here to spend the Fourth of July, and then visit Cincinnati. From that city they will go to St. Louis, and under their future home, Mr. Smith being in business in the city.

SOUTH SIDE.

Born—To Mr. and Mrs. Chris. Manser of No. 1033 Forest avenue, a twelve pound boy.

Miss Margie Beigler, of 915 St. John's avenue, is recovering from an attack of the measles.

The Ladies Aid Society, of Grace M. E. church, gave an ice cream social on the church lawn last night.

Mr. Norris Suberland, of No. 918 St. John's avenue, is able to be about again, after being laid up a week with measles.

The ice cream social given by the Willing Workers of the Main Street Presbyterian church at the residence of Miss Rose Griffith, last night, was a successful and pleasant affair.

The funeral services of the infant child of Mr. and Mrs. Calvin A. Stevenson, that died yesterday morning, were held from the residence of Mr. John Stevenson at ten o'clock this morning. The remains were interred in the Shawnee cemetery.

AMONG THE RAILROADS.

Engine 83 is out of the C. H. & D. shops. Engineer Block with its running on the C. H. & D. and D. engines.

Overseer Will Fields, of the C. & E. formerly located here in Marion, is now drilling in adjacent territory.

Longino, O. W. Road, of the C. & E. has gone to Bellefonte on business.

Chas. Stone, formerly night watchman at the C. & E. is visiting at his home in Fort.

Passenger engineer Sam Craig, of the C. H. & D. has resumed his run after a several days lay off.

William Christ, of Tipton, passenger conductor on the L. & W. 1, is the guest of his brother in this city.—Huntington Herald.

Pastorango.

Plenty of grass, clover and water. Near town. Call on ROSS & LEE, 57 Public Square.

ROUND ABOUT.

The salary of the postmaster at Bluffton has been raised from \$1000 to \$1100, and at Delphos from \$1000 to \$1100. The advances are based on increased business.

A gentleman, who in company with his wife, just returned from the World's Fair, says that the week end was a most successful one, and that they saw everything of importance, including Black Creek.

A prominent horseman in attendance at the races, when asked his opinion as to whether the trotting season would be a success this season, said: "I think Malcolm Robertson's stallion will put it there."

He is now training at the Mendocino kilt track, and will probably make the trip to Bluffton, where he will enter his stallion, and will be the greatest feat ever done by a trotter. There is not a 2-year-old living in this county that is able to repeat the performance."

County Treasurer Young is collecting taxes at different points in the county. The law does not compel this, but it is a convenience to the public. Mr. Young, like his predecessors will continue the practice.

John Halton, who left Lima some time ago for Cincinnati where he finished a dental course, is in the city renewing his acquaintance. Dr. Halton was a special agent for the Elk's Annual Register, and "The Elk" and is here in the interests of these publications.

At the house of the bride's parents, Mr. and Mrs. Jacob Cohen, in Eliza, this evening, will occur the marriage of the daughter of the bride, to Mr. Stanley Feltz, of Delphos.

Mrs. Wilbur Loy, nee Eva Godfrey was laid to rest yesterday. The deceased had many warm friends, especially among the older residents.

Major Tim Spillacy is here all the way from the oil fields of West Virginia to take in the race.

SIXTY DAYS.

Will See Work Commenced on the Public Building.

The drawings completed and the Specifications Nearly So, is the move from Washington.

In order to intelligently answer the thousand and more questions as to when work would begin on the public building, Mr. C. F. Farnot, chief architect, yesterday morning, to visit the site of the building, and ascertain the exact condition of Lima's proposed structures.

In reply, Mr. Farnot, later in the day received the following:

WASHINGTON, D. C., June 28.

C. F. Farnot, Limited, specifications nearly so, for public building and work will begin within the next thirty days.

KICKING.

Blair's Backers Doing More Monkey Business.

The five lot of Columbus sports, who are behind Blair's back, are kicking Blair, who backed out of his fight with Lupton, the latter had spent time and money in getting into shape to face the Columbus back, and the latter was very badly injured.

The backers of Ed Blake, the Columbus pugilist, wired a protest to the Columbus sporting association, to the effect that the latter at once notified the sporting association, that the fight was off.

THE RACES.

Yesterday Witnessed by an Increased Crowd.

Lora Wins in a Remarkable Heat—Tomorrow's Events.

The races will close tomorrow afternoon with a free for all trot, a 2:15 pace and another trotting race. The races will be good and full of interest and no one should miss them.

The attendance yesterday was only fair, but the grounds were packed today, and the events will also draw well tomorrow.

The races yesterday afternoon were finished about 4:15 o'clock and were as follows:

The first race was the 2:50 trot for a purse of \$100. There were seven entries but only three were started. The horses got off with Kate V. in the lead and she maintained it to the finish. Little Snap, who finished second, not getting nearer than a length.

It was a very close race and was watched by a large number of spectators.

In the second heat Kate got off in front again, followed by Snap, two lengths behind. The race was very close, but Kate V. won by a distance in the year, and widened the space by a break on the first turn.

KATE HAD A LENGTH.

ahead of Snap at the first half. Philadelphia had settled down to business and crawled up on the leaders, but could not get into the race. The horses got off with Kate V. in the lead and she maintained it to the finish.

The third heat resulted in Kate V. winning in about the same manner, the others bringing up the rear in the order as before.

On the 2:50 pace, the horses were very close, but Kate V. won by a distance in the year, and widened the space by a break on the first turn.

On the 2:50 pace, the horses were very close, but Kate V. won by a distance in the year, and widened the space by a break on the first turn.

Very Billiard Balls Stained With Blood.

The globe of ivory which is knocked about a table in a game of billiards costs, if of good quality, at least \$10. This represents its cost in money. There is, however, a far more important and formidable element in the price which has been paid for it. The billiard ball of pure ivory represents as it lies white and gleaming upon the cloth an expenditure of human lifeblood as well as of money.

Elephants' tusks are brought down to the African coasts by caravans generally in charge of Arabs, which have been trading in the interior. Very often they have picked up slaves as well as ivory. But this phase of the matter may be left out of the account.

It is estimated that every large caravan bringing ivory to the coast has cost more than 100 human lives through fights and murders in the course of the expedition. Thirty more men are likely to have succumbed to fever or other diseases and the fatigues of the march.

The hunting of the elephants and the capture of the ivory are very likely to have caused the death of 10 men altogether. Such casualties are the rule in elephant hunting rather than the exception.

An average task does not furnish more than enough material for two good billiard balls. Of course the remainder of the ivory in each task is made use of in other ways. A perfectly cut billiard ball requires special quality of so called "nerves," which is found only in one part of the tusk.

The chances are that a billiard ball of the first quality has cost at least one human life, and there is not one such ball which may not have the same cost to be stained with human blood. They can hardly be considered, therefore, a cheerful accompaniment to a sensitive person's diversions.—Youth's Companion.

They Will Try Only One Man.

LONDON, June 29.—Captain Bourke, the senior officer, among the survivors of the warship Victoria, will be tried by a special naval board, sitting at Malta, for having lost the vessel. Further proceedings will depend upon the event of this trial. No steps will be taken in the matter of court-martialing the officers of the Victoria until after the end of Bourke's case.

The originals, who have long made use of basket ware, seem to have solved completely the problem of combining use and beauty in such articles, and the best of such things as made are those that follow the lines long ago established by the ancients or by our own Indians.

WHERE TO BUY.

American Waukegan Water, 5 gallons or more, at 12c per gallon, delivered. Telephone 44.

Send your pupils to Prof. B. Francis for voice culture and organ and piano instruction. Call or address for terms. Royal Block, South Main street.

Pure Water. Pure Water for family use. Send orders to E. Christen, sole agent for American Waukegan Water.

Hats worth from 75c. to \$2. for 25c. at Oxley's.

Families supplied with Pure Waukegan Water. Send your orders. Telephone 44.</
